Navina M

Risk and Data Analytics Professional | Fraud & Compliance Analytics | SQL, Power BI, Excel | Statistical Analysis
Salem, Tamil Nadu | +91 9092278124 | navina.mk7@gmail.com | Portfolio | LinkedIn | SQL Portfolio | GitHub

Risk & Compliance analytics professional with **2 years of experience** resolving **150,000+** fraud, compliance, and content integrity cases, including 100,000+ Product Quality investigations with **near-100% decision accuracy**. Leveraging **SQL**, **Excel**, and pattern detection to generate risk insights, identify trends, and support enforcement and operational decisions.

SKILLS

Data Analytics: SQL, Power BI (DAX, Power Query), Excel (Advanced), Python (Pandas, NumPy), ETL, KPI Reporting
Risk Analytics: Fraud Pattern Analysis, Anomaly Detection, Root Cause Analysis, Compliance Review, Abuse Detection, Risk Management, Trust & Safety Investigations, **OSINT (Open-Source Intelligence)**, Generative AI

WORK EXPERIENCE

Amazon Development Center India Pvt. Ltd. | Investigation Associate

Product Quality (PQ) Jun 2025 – Present

- Investigated **100,000+** high-risk brand protection, IP compliance, and content integrity cases**,** exceeding productivity targets by **up to 150%** while maintaining near-**100% decision quality** using **multi-source data analysis and OSINT**.
- Analyze **15K+ monthly investigations** using policy-driven, evidence-based risk adjudication aligned with defined risk indicators, historical behavior patterns, and SOP thresholds.
- Conduct **SQL and Excel-driven abuse analysis** to identify patterns, produce risk summaries, and collaborate cross-functionally to escalate systemic abuse, support IP enforcement decisions, and improve detection workflows.

Claims Risk Investigation (OTC) Mar 2024 – May 2025

- Resolved **43,800+ risk-flagged claims** with **99.6% accuracy**, handling chargebacks, retrocharges, and appeals while maintaining high SLA adherence and compliance with fraud prevention and AML controls.
- Analyzed claim behaviors using **pattern recognition and anomaly detection** to identify emerging fraud trends and strengthen investigative decision-making.
- Delivered **audit-ready risk documentation** enabling compliance review and structured risk reporting.
- Recognized as **Super Star Trainee** for investigation accuracy, quality benchmarks, and performance excellence.

PROJECTS

Payments Fraud & Risk Analysis | End-to-End Risk & AML Analytics (SQL) **|** GitHub

- Engineered an **AML-style monitoring framework** using advanced SQL (CTEs, rule logic) across ~4,900 transactions and 500 users, designing **rule-based detection** for velocity, high-value, and repeated failures (~8% alert rate).
- Developed composite user risk scoring to prioritize high-risk entities, optimize thresholds, and reduce false positives.

Market Expansion Strategy Analysis | Business Recommendation (SQL) **|** GitHub

- Built **multi-table SQL analysis** using CTEs to evaluate revenue concentration, segmentation, and cost efficiency.
- Designed KPI framework and **market potential model** to support data-driven expansion and profitability decisions.

Yelp Business Reviews Analytics | End-to-End Data Analytics (Python, S3, Snowflake, SQL, Power BI) **|** GitHub

- Processed **6.9M+ records** and built a Snowflake star-schema model to enable scalable trend and sentiment analysis.
- Developed DAX-driven Power BI dashboards with SQL validation to surface category performance insights.

ADDITIONAL EXPERIENCES

Deloitte Australia – Data Analytics Job Simulation | Tableau, Excel **|** Deloitte Apr 2025

- Delivered forensic insights using Tableau & Excel, simulating real client reporting scenarios.

Data Science & Data Analyst Intern (Remote) | Python, SQL, Machine Learning Oct 2023 – Mar 2024

- Built a recommender system and regression model using Python & SQL for personalization and pricing analytics.

CERTIFICATIONS

- Google AI Professional Certificate | Google Feb 2026
- AWS Cloud Practitioner Essentials | Amazon Web Services Nov 2025
- Google Data Analytics Professional Certificate | Google Oct 2023

EDUCATION

College of Engineering, Guindy (CEG) – Anna University Chennai, Tamil Nadu
B.E., Electronics & Communication Engineering — First Class Aug 2017 – Apr 2021
