Navina M

Risk & Data Analytics Professional | Trust & Safety | Fraud & Compliance Analytics | SQL, Power BI, Excel
Salem, Tamil Nadu | +91 9092278124 | navina.mk7@gmail.com | Portfolio | LinkedIn | SQL Portfolio | GitHub

Risk & Fraud Analytics professional with **2 years of experience at Amazon** specializing in **Trust & Safety investigations, abuse detection, and compliance risk analysis**. Reviewed **150,000+ high-risk cases** across claims, brand protection, and IP compliance while maintaining **~100% decision accuracy**. Skilled in **SQL, Power BI, and root cause analysis** to identify fraud patterns, generate risk insights, and support data-driven policy enforcement.

SKILLS

Data Analytics: SQL, Power BI (DAX, Power Query), Excel (Advanced), Python (Pandas, NumPy)
Risk & Fraud Analytics: Fraud Pattern Analysis, Anomaly Detection, Root Cause Analysis (RCA), Compliance Review, Trust & Safety Investigations, OSINT (Open-Source Intelligence)
Analytics & Reporting: Dashboard Development, KPI Reporting, Data Visualization, Risk Insights

WORK EXPERIENCES

Amazon Development Center India Pvt. Ltd. | Investigation Associate

Product Quality (PQ) Jun 2025 – Present

- Reviewed and adjudicated **110,000+** brand protection, IP compliance, and content integrity cases, identifying policy violations and abuse patterns while exceeding productivity targets by **up to 152.5%** using multi-source data analysis.
- Executed **policy-driven, evidence-based risk adjudication** using **OSINT**, defined risk indicators, historical behavior patterns, and SOP thresholds while maintaining **near-100% decision quality (DQ)**.
- Conducted **SQL and Excel-based abuse analysis** to identify patterns, perform **root cause analysis (RCA)**, generate risk summaries, and collaborate cross-functionally to escalate systemic abuse and support IP enforcement.

Claims Risk Investigation (OTC) Mar 2024 – May 2025

- Resolved **43,800+ risk-flagged claims** with **99.6% accuracy**, handling chargebacks, retrocharges, and appeals while maintaining high SLA adherence and compliance with fraud prevention and AML controls.
- Analyzed claim behaviors using **pattern recognition and anomaly detection** to identify emerging fraud trends and strengthen investigative decision-making.
- Delivered **audit-ready risk documentation** supporting compliance reviews and structured risk reporting.
- Awarded **Super Star Trainee** for investigative accuracy, quality benchmarks, and performance excellence.

PROJECTS

Fraud Risk Triage & Analytics System | Transaction Monitoring (SQL, Python, Power BI, Generative AI) **|** GitHub

- Built an end-to-end fraud analytics pipeline analyzing **800K financial transactions** to detect velocity-based fraud, high-risk payment methods, and suspicious cross-border activity.
- Developed **risk scoring models and Power BI dashboards** to prioritize high-risk transactions, visualize fraud patterns, and generate AI-driven fraud insights using the **Gemini API**.

Yelp Business Reviews Analytics | End-to-End Data Analytics (Python, S3, Snowflake, SQL, Power BI) **|** GitHub

- Processed **6.9M+ records** and built a Snowflake star-schema model to enable scalable trend and sentiment analysis.
- Developed DAX-driven Power BI dashboards with SQL validation to surface category performance insights.

ADDITIONAL EXPERIENCES

Deloitte Australia – Data Analytics Job Simulation | Tableau, Excel **|** Deloitte Apr 2025

- Performed **forensic data analysis and built Tableau dashboards** to simulate client-facing investigation reports.

Data Science & Data Analyst Intern | Python, SQL, Machine Learning Oct 2023 – Mar 2024

- Built a recommender system and regression model using Python & SQL for personalization and pricing analytics.

CERTIFICATIONS

- Google AI Professional Certificate | Google Feb 2026
- AWS Cloud Practitioner Essentials | Amazon Web Services Nov 2025
- Google Data Analytics Professional Certificate | Google Oct 2023

EDUCATION

College of Engineering, Guindy (CEG) – Anna University Chennai, Tamil Nadu
B.E., Electronics & Communication Engineering — First Class Aug 2017 – Apr 2021
