Navina M

Risk & Fraud Analytics | Trust & Safety | Data Analytics | SQL, Power BI, Excel
Salem, Tamil Nadu | +91 9092278124 | navina.mk7@gmail.com | Portfolio | LinkedIn | SQL Portfolio | GitHub

Risk & Fraud Analytics professional with **2 years of experience at Amazon** specializing in **Trust & Safety investigations, fraud detection, and compliance risk analysis**. Reviewed **150,000+ high-risk cases** across claims, brand protection, and IP compliance while maintaining **~100% decision accuracy**. Skilled in **SQL, Power BI, and root cause analysis** to identify fraud patterns, generate risk insights, and support data-driven decision making and policy enforcement.

SKILLS

Data Analytics: SQL, Power BI (DAX, Power Query), Excel (Advanced), Python (Pandas, NumPy), ETL, Data Analysis
Risk & Fraud Analytics: Fraud Detection, Fraud Pattern Analysis, Anomaly Detection, Root Cause Analysis (RCA), Compliance Review, Trust & Safety Investigations, OSINT, Risk Management, AML & KYC
Analytics & Reporting: Dashboard Development, KPI Reporting, Data Visualization, Risk Insights, Generative AI

WORK EXPERIENCES

Amazon Development Center India Pvt. Ltd. | Investigation Associate — Mar 2024 – Mar 2026

- Resolved **43,800+ risk-flagged claims with 99.6% accuracy**, handling **chargebacks, retrocharges, disputes, and appeals** while ensuring SLA adherence and compliance with **fraud prevention, AML, and KYC controls**.
- Analyzed claim behaviors using **pattern recognition and anomaly detection** to identify emerging fraud trends and improve investigative decision-making.
- Delivered **audit-ready risk documentation and reporting** supporting compliance reviews and **regulatory requirements**.
- Reviewed and adjudicated **110,000+ brand protection, content integrity, and IP compliance cases**, identifying abuse patterns and policy violations while exceeding productivity targets by up to **152.5%** using multi-source **data analysis and pattern identification**.
- Executed **policy-driven, evidence-based adjudication** using OSINT, risk indicators, and standardized investigation frameworks (SOPs), maintaining **near-100% decision quality (DQ)**.
- Conducted **SQL & Excel-based data analysis and root cause analysis (RCA)** to generate risk insights and escalate systemic abuse cross-functionally.
- Awarded **Super Star Trainee** for investigative accuracy, quality benchmarks, and performance excellence.

PROJECTS

Fraud Risk Triage & Analytics System | Transaction Monitoring (SQL, Python, Power BI, Generative AI) **|** GitHub

- Built an end-to-end fraud analytics pipeline analyzing **800K financial transactions** to detect velocity-based fraud, high-risk payment methods, and suspicious cross-border activity.
- Developed **risk scoring models and Power BI dashboards** to prioritize high-risk transactions, visualize fraud patterns, and generate AI-driven fraud insights using the **Gemini API**.

Yelp Business Reviews Analytics | End-to-End Data Analytics (Python, S3, Snowflake, SQL, Power BI) **|** GitHub

- Processed **6.9M+ records** and built a Snowflake star-schema model to enable scalable trend and sentiment analysis.
- Developed DAX-driven Power BI dashboards with SQL validation to surface category performance insights.

ADDITIONAL EXPERIENCES

Data Science & Data Analyst Intern | Python, SQL, Machine Learning — Oct 2023 – Mar 2024

- Built a recommender system and regression model using Python & SQL, applying data analysis and machine learning techniques for personalization and pricing optimization.

CERTIFICATIONS

- Certified Anti-Money Laundering and Compliance Expert (CAML) | Udemy — In Progress
- Google AI Professional Certificate | Google — Feb 2026
- AWS Cloud Practitioner Essentials | Amazon Web Services — Nov 2025
- Google Data Analytics Professional Certificate | Google — Oct 2023

EDUCATION

College of Engineering, Guindy (CEG) – Anna University — Chennai, Tamil Nadu
B.E., Electronics & Communication Engineering — First Class — Aug 2017 – Apr 2021
